

SICA Nipania students awarded in IIT Indore

The Former Chairman, ISRO Dr .K . Radhakrishnan felicitated SICA Nipania students in IIT Indore Khandwa Road, Simrol. On the occasion of their 11th Anniversary an essay competition was organised on the topic 'An invention- my dream' where 120 students from 80 schools participated. Students were awarded with second and third prize. They received a certificate and prize money from the chief guest . Sakshi Shukla of Class IX got 2nd prize , Mokshi Chouhan of Class VI , Umer Raza of Class VII , Kanishka Garg of Class IX , Janvi Agarwal of Class IX received 3rd prize. Prize money for 2nd prize was 7500/ and 3rd prize was 5000/.

The students manifest how foresighted they are. They thought out of the box and presented the ideas of their inventions. Sakshi presented the idea to make a capsule like vehicle for the handicapped people where they won't need anybody 's help to move. Janvi wants to design a remote control with a screen where parents can be vigilant about the mobile and laptop screens of their children. Kanishka presented her idea for making a foldable car which will run on solar energy. Umer Raza wants to make a time machine which will help to recreate past. Mokshi puts forward her concern about the recent fire incident in Australia and wants to design a fire controller, which can forewarn about such disasters. Students did a campus tour of IIT. It was an amazing experience for them.
